

17th November 2025

To our valued customers,

Please be advised there will be catalogue wide update to list and nett pricing on the 1st of January 2026.

Whilst pricing changes will be applicable on most products in our range, there will be more significant movement on refrigerants as we have continued to see through 2025.

Firm quotations will remain valid for 30 days and our branch teams can support you with providing and conversion of valid quotations.

As we get further into the Refrigerant phasedown, we recommend that all new Refrigeration systems should be designed using a lower GWP alternatives where possible. Please refer to <https://gas2go.com.au/products/> for more information on how you can make these changes.

We encourage you to review pricing via the Beijer Ref RefShop or contact your nearest branch or representative.

We appreciate your ongoing business and support.

Best regards,

The team at Beijer Ref Australia
